Although the concepts of GIS have remained fairly constant over time, the software is continually evolving. With the release of ArcGIS Pro, the latest software in the Esri GIS family, a new generation of GIS has arrived. ArcGIS Pro has a 64-bit, multithreaded architecture, uses ribbon-style menus, integrates 2D and 3D applications, and is closely tied to ArcGIS Online. This text constitutes a major rewrite of Mastering ArcGIS, a book that covered GIS concepts and skills using the ArcGIS Desktop programs of ArcMap and ArcCatalog. Although the GIS concepts largely remain the same in both texts, the implementation, and in some cases the terminology, has changed.

The Thing about Roy Fisher is the first critical book to be dedicated to the work of this outstanding poet, who has won many admirers for his explorations of the modern city, his experiments with perception and sensory experience, his jazz-inspired prose, and his political and cultural comedies. The collection brings together a distinguished group of contributors: poets and critics, from several generations, active on both sides of the Atlantic. In a dozen newly commissioned essays they discuss the entire range of Roy Fisher's work, from its fraught beginnings in the 1950s through such major texts of the 1960s and 1970s as *City*, *The Ship's Orchestra* and *Wonders of Obligation*, to *A Furnace*, his 1980s masterpiece, and

beyond. The essays are closely engaged with the fabric of Fisher's verse, but they also bring into view a fascinating array of connections between contemporary poetry and philosophy, psychology; the visual arts and jazz. The Thing about Roy Fisher ends with a full and up-to-date bibliography; an essential starting point for further study of this versatile and complex writer, whose centrality and importance within modern English and European poetry is now more than ever apparent. Kerrigan and Robinson's collection provides a helpful introduction to Roy Fisher's work, and will be necessary reading for anyone with a live interest in modern poetry.

THE DEATH OF THE LORD JESUS CHRIST is a subject of never-failing interest to all who study prayerfully the scripture of truth. This is so, not only because the believer's all both for time and eternity depends upon it, but also, because of its transcendent uniqueness. Four words appear to sum up the salient features of this mystery of mysteries: the death of Christ was natural, unnatural, preternatural, and supernatural. The death of Christ was natural. By this we mean that it was a real death. It is because we are so familiar with the fact of it that the above statement appears simple and commonplace, yet, what we here touch upon is to the spiritual mind one of the main elements of wonderment. The one who was "taken, and by wicked hands" crucified and slain was none other than Jehovah's "Fellow". The blood that was shed on the accursed tree was divine - "The church of God which he purchased with his own blood"

In this sequel to Waterhouse's Billy Liar, Billy Fisher may be thirty-three but still hasn't grown out of his propensity for lying. Stuck in a loveless marriage in a dismal town, where he has a dead-end job in local government, Billy seeks escape through his affair with Helen, who is also unhappily married. But once again he finds himself in danger of being undone by his lies: vodka martinis charged to his expense account, a wise-cracking alter ego named Oscar, a false police report about a stolen set of nonexistent golf clubs, an imaginary cat named 'Mr Pussy-paws' . . . Now the all-important town festival is approaching, but instead of doing the planning, Billy is busy trying to keep ahead of the suspicions of his wife, the police, and Helen's jealous husband.
