Artificial Intelligence Techniques in Prolog introduces the reader to the use of well-established algorithmic techniques in the field of artificial intelligence (AI), with Prolog as the implementation language. The techniques considered cover general areas such as search, rule-based systems, and truth maintenance, as well as constraint satisfaction and uncertainty management. Specific application domains such as temporal reasoning, machine learning, and natural language are also discussed. Comprised of 10 chapters, this book begins with an overview of Prolog, paying particular attention to Prolog terms and rules (and Prolog facts as special cases); unification; the and-or computation tree induced by a Prolog program and a query; the depth-first, left-to-right traversal of that tree by the standard Prolog interpreter; and built-in predicates such as unification and equality. Subsequent chapters deal with search and representation of graphs in Prolog; backward-chaining methods; truth maintenance systems; and constraint satisfaction. Reasoning with uncertainty, planning and temporal reasoning, and machine learning are also tackled. The book concludes with an assessment of natural language processing and some of the linguistic notions that are easily encoded in Prolog. This monograph will be of interest to both students and practitioners in the fields of AI and computer science.

The Gregg Reference Manual 9e by William Sabin is intended for anyone who writes, edits, or prepares material for distribution or publication. For nearly fifty years, this manual has been recognized as the best style manual for business professionals and for students who want to master the on-the-job standards of business professionals. Also cited as GPO Style Manual. Issued by the Public Printer under authority of Section 1105 of Title 44, United States Code. Designed to achieve uniform word and type treatment and economy of word use in the form and style of Government printing.

Predator 500, 2003-2007; Predator 500 (Troy Lee Designs) 2005-2006

"[Seize the high ground is a] narrative history of the Army's aerospace experience from the 1950s to the present. The focus is on ballistic missile defense, from the early NIKE-HERCULES missile program through the SAFEGUARD acquisition site allowed by the 1972 ABM Treaty to the more advanced 'Star Wars' concepts studies toward the end of the century. [What is] covered is not only the technological response to the threat but the organizational and tactical development of the commands and units responsible for the defense mission"--CMH website.

It takes two. Even if men aren't from Mars and women aren't from Venus, they still have different takes on what makes a relationship work. In this he says--she says book, Bishop Joseph Walker and his wife Dr. Stephaine Walker tell you how to know when you're in love and ready to take that next step of commitment. This dynamic and successful couple will also dialogue about the place of intimacy, carving out time for each other, and the importance of creating a spiritual life together in order to make significant and lasting decisions. They will also talk about the values necessary to keep couples together in this temptation-laden culture.
