The role pharmacy technician is regulated and has developed significantly in recent years. You will carry out some of the same tasks as a pharmacist, engaging with patients and managing the supply of medicines in a community pharmacy, and liaising with other members of the healthcare team. In a hospital, you could manage the pharmacy department, be involved in taking medicine histories from patients and reviewing medicines, counselling, and giving advice on different treatment options.

~~Pharmacy technician | Health Careers~~

The majority of pharmacy technicians work in retail pharmacies, but the most coveted pharmacy technician position is often in a hospital pharmacy. There is very good reason for this: hospital pharmacy technicians earn about 20% higher salaries than retail pharmacy technicians. Though their duties are similar, there are some key differences between working in a hospital pharmacy and a retail pharmacy.
