His wealth? Infinite. Claiming his baby? Priceless! He may be the richest man on earth, but self-made Joao Oliviera ' s latest deal is personal. To ensure victory, he needs his right-hand woman, Saffron Everhart. But the undeniable tension between them is higher than ever since they finally surrendered to a one-off, emotionally charged night together. And it ' s about to skyrocket again, because Joao ' s just found out that Saffron is pregnant! Enter into a world of unimaginable luxury...

After one night of shared passion, the new sheikh Rashid al Kharim has a proposal for the new nanny Tora Burgess that neither can refuse.

Human beings are getting fatter and sicker. As we question what we eat and why we eat it, this book argues that living well involves consuming a raw vegan diet. With eating healthfully and eating ethically being simpler said than done, this book argues that the best solution to health, environmental, and ethical problems concerning animals is raw veganism—the human diet. The human diet is what humans are naturally designed to eat, and that is, a raw vegan diet of fruit, tender leafy greens, and occasionally nuts and seeds. While veganism raises challenging questions over the ethics of consuming animal products, while also considering the environmental impact of the agriculture industry, raw veganism goes a step further and argues that consuming cooked food is also detrimental to our health and the environment. Cooking foods allows us to eat food that is not otherwise fit for human consumption and in an age that promotes eating foods in ' moderation ' and having ' balanced ' diets, this raises the question of why we are eating foods that should only be consumed in moderation at all, as moderation clearly implies they aren ' t good for us. In addition, from an environmental perspective, the use of stoves, ovens and microwaves for cooking contributes significantly to energy consumption and cooking in general generates excessive waste of food and resources. Thus, this book maintains that living well and living a noble life, that is, good physical and moral health, requires consuming a raw vegan diet. Exploring the scientific and philosophical aspects of raw veganism, this novel book is essential reading for all interested in promoting ethical, healthful, and sustainable diets.

Geared toward sleep specialists, neurologists, geriatricians, and psychiatrists, Geriatric Sleep Medicine presents the most current medical research for the diagnosis and management of sleep disorders in the older patient. Focused on the prevention of chronic geriatric sleep disorders, this text examines: the most recent and up-to-date classification information of sleep disorders from the American Academy of Sleep Medicine current algorithms for the evaluation and management of sleep disorders (e.g., insomnia, sleep apnea, parasomnia, hypersomnia, restless legs syndrome) in older adults both pharmacological and nonpharmacological treatments Geriatric Sleep Medicine also explores special topics of interest to clinicians, including sleep problems post-menopause, in the nursing home setting, and at the end stages of life.

This volume brings together a group of international scholars to analyze the globalized networks of Indian cinema. It provides a critique of a common scholarly tendency in the field of popular cinema of defining Indian films in terms of their modernity and desire for nationhood. Bollyworld argues that Indian cinema cannot be understood in terms of this national paradigm, and must be more properly described as a field of visual and cultural production that interlinks sites as diverse as the cosmopolitan city of Bombay, the provincial region of Maharashtra, and countries such as Nigeria, Germany, South Africa and the United Kingdom. The twelve essays track the intra-national and trans-national movements of Bollywood cinema. Divided into three sections, the first discusses the technology and aesthetics of India's commercial cinema as it developed in the period that spans the silents from 1913 to the advent of the talkies in 1931. The second section studies these films as 'local', 'intertextual' manifestations of globalization and highlights the changes in post-liberalization cinema. Against the backdrop of economic liberalization, the institutionalization of multiculturalism and a strong voice of migrant Indian populations, the third section focuses on the overseas reception of Indian films.

While still in his twenties, the Anglo-Irish playwright Martin McDonagh has filled houses in London and New York, ranked in the most prestigious drama awards.

In this heartfelt, incisive novel, Danielle Steel celebrates the virtues of unconventional beauty while exploring deeply resonant issues of weight, self-image, sisterhood, and family. A chubby little girl with ordinary looks, Victoria Dawson has always felt out of place in her family, especially in body-conscious L.A. While her parents and sister can eat anything and not gain an ounce, Victoria must watch

everything she eats, as well as endure her father's belittling comments about her body and see her academic achievements go unacknowledged. Ice cream and oversized helpings of all the wrong foods give her comfort, but only briefly. The one thing she knows is that she has to get away from home, and after college in Chicago, she moves to New York City. Landing her dream job as a high school teacher, Victoria loves working with her students and wages war on her weight at the gym. Despite tension with her parents, Victoria remains close to her younger sister, Grace. Though they couldn't be more different in looks, they love each other unconditionally. So when Grace announces her engagement to a man who is an exact replica of their narcissistic father, Victoria worries about her sister's future happiness, and with no man of her own, she feels like a failure once again. As the wedding draws near, a chance encounter, a deeply upsetting betrayal, and a family confrontation lead to a turning point. Behind Victoria is a lifetime of hurt and neglect she has tried to forget. Ahead is a challenge and a risk: to accept herself as she is, celebrate it, and claim the victories she has fought so hard for and deserves. Big girl or not, she is terrific and discovers that herself.

This is the first book on the psychoanalytic treatment of children, young people and adults with Asperger's syndrome. It includes multi-disciplinary contributions on psychiatric perspectives and psychological theories of the condition. There is an overview of relevant psychoanalytic theory, and chapters on Asperger's original paper, on first-person accounts, on assessment and on care in the community. Clinical case histories of children, young people and the first published account of work with adults provide the possibility of using psychoanalytic work as a means of diagnostically differentiating between sub-groups, as well as providing a detailed insight into the emotional experience of people with Asperger's syndrome. Both Editors teach on the Tavistock Clinic Training in Child and Adolescent Psychotherapy. They are widely published authors and have both given lectures and papers in the UK, Europe and the United States.
