What is the purpose of the cap shaper (3078007) ? I just recently purchased a shaper that is old, but in good condition and was told it was a Grizzly because it has a 5 yr old Grizzly 2 hp motor on it. It has a 1/2 in spindle and from the research I've done it looks like a Powermatic 26 at least I hope it is.

Powermatic 26 Shaper For Sale | Lumbermenonline.com

This spindle assembly fits Powermatic model 26 shapers. It is a 1" diameter solid spindle and is in like new condition having seen extremely little use. The 1" solid spindle allows the use of larger heavier cutters. It is not only stronger but typically runs truer and cuts smoother than the interchangeable spindles since it is one piece.

Operating Instructions and Parts Manual Spindle Shaper

A digital spindle readout comes stock on most Powermatic shapers for the perfect construction of fine incremental adjustments on multiple passes. Spindle speed varies from machine to machine according to your exact workload. Perforated aluminum fences T-slots on every model enable mounting of wood faces to create a no clearance surface around your Powermatic shaper or bit. The Powermatic ...

Shapers - Powermatic

Powered by a big 7-1/2HP motor that drives the spindle forward and reverse with five speeds. The massive sliding table is fully supported by six tapered precision bearings through a full four-foot stroke. In addition, on board the table is a large miter head complete with stock hold-down clamp and a 56" miter fence with flip stop.
