resulting in the presence or expansion of continental and polar ice sheets and alpine glaciers. Earth's climate alternates between ice ages and greenhouse periods, during which there are no glaciers on the planet.

Ice age - Wikipedia

The Ice Age is a period in the Earth ' s history that began around 70,000 years ago. As the name suggests, it was a period when the climate was way colder than it is today. In fact, it was the time when most of the Earth ' s surface was buried under sheets of ice.
